YooHoo & Friends

YooHoo & Friends, was created to educate children about protection and preservation of the environment and encourages parents and their children to appreciate friendship, harmony, honesty and courage. The YooHoo & Friends characters are a species who, along with their habitat where they grow "Trees of Life", are at risk of extinction because of worsening environmental conditions. When a "Tree of Life" seed is accidentally blown away to Earth, the characters go on adventures to find the magical seed, avoiding danger and receiving help from new friends made along the journey. The five main characters are YooHoo the Bush Baby, Roodee the Capuchin Monkey, Pammee the Fennec Fox, Lemmee the Ring-tailed Lemur and Chewoo the Red Squirrel.
